

Cheese, wine and a movie under the stars

After a long day at work, round up your friends or family, and head out for cheese, wine and a movie under the sparkling stars. Held at ZEN Garden, Brown's Cheese has found a dedicated following for their outdoor movie event on Thursday, with a capacity crowd buzzing with excitement and a true feeling of community.

Fresh popcorn popped away like a soundtrack in the background as its buttery aromas filled the air, whilst the guests enjoyed the romantic chemistry of Humphrey Bogart and Ingrid Bergman in the 1942 classic *Casablanca*. Soft candle light washed over ZEN, and comfortable chairs and lounge areas were covered with lush pillows. The carefully crafted hors d'oeuvres and exclusive cheeses paired with KWV wines created a sensual culinary experience. Homemade ice-cream completed the flavourful evening and cooled off everyone's palette as the crowd became engrossed with the star-crossed romance of the Oscar-winning film.

A great way to learn about different wines and taste exclusive cheeses, The Cheese Tasters Club promises to bring more events that marry the best in culinary and cinematic culture.
